

A Word from the Librarian

July 2010

If you have looked at the breezeway hall, you can see that we have great participation on our Score with Books Summer Reading Club. If you have not completed the requirements yet, there is still plenty of time. Remember you will be rewarded with a FREE ticket to the Biscuits Baseball Game on July 24 (fireworks to follow the game) if you complete your requirements by July 21. Parents, I want to encourage you to watch family movies with your children. Many of the movies have discussion guides inside the box or discussion questions on the DVD itself in extra features. Even if there is no discussion guide included, I want to encourage you to discuss the movie with your children. You could use that as part of a family devotion time.

Since Pastor Shane talked to us about the importance of training up a child in the way he should go, I want to let you know that your library can help! We have many books, movies, and CD's that can assist you with your family time. Pastor Shane also reminded us that we should be training our children all day, every day. The library can help with that too! Do your kids ride in the car with you? The library has a large variety of CD's (and cassette tapes) that you can listen to while you are driving. We have many books on CD that would be great for extended drive times (like vacations). you have many items available to help you instill Christian values in your kids and grandkids. I will put together a list of some items available here. Just ask for a copy. Please take advantage of all that God has made available to you through your library!

In Service to Christ,
Marty Woodall
